Stability

Improving your balance and stability will not only make you more agile, but will also promote greater strength gains and weight loss.

Before You Begin

Always review exercise with your doctor to ensure that it isn't contraindicated by any medications or medical issues you may have. If you haven't trained for a while, start out slow and go easy. If at any time you feel you are exercising beyond your current fitness abilities, or you feel discomfort, pain, dizziness, or nausea, you should discontinue exercising immediately. You are responsible for exercising within your limits.

BEFORE YOU BEGIN

You are responsible for exercising within your limits.

Warm Up

- A warm up will prepare you for exercise by increasing blood flow to the muscles as well as help increasing joint range of motion
- Perform a 5 minute warm up, starting at a slow pace and gradually increasing it as you proceed.

Wide Grip Pulldown
Back

- 1 - Grasp the bar using a shoulder-width grip with your arms extended straight overhead.
- 2 - Pull the bar down in front to the top of your chest, bending at the elbows.

- Straighten your arms fully, returning the bar to the top position.

Side Bridge
Abs

- 1 - Lie on one side propped up on one elbow with your legs straight out on top of one another.
- 2 - Raise your body off the floor, resting on your forearm and foot.

- Try to keep your body in a straight line and your elbow directly under your shoulder.
- Hold, then lower yourself back to the floor and repeat.

| 10 | | | |

Core Rotation
Abs

- 1 - Stand upright holding the end of a weighted bar at chest level with your elbow bent and the other end anchored on the floor against a solid object.
- 2 - Twist your upper body to one side, lowering the bar down to the side of that knee and bending at your hips and knees.
- 3 - Return to the upright mid-position and repeat to the other side.

Cool Down

- A cool down allows time for your heart rate and core temperature to begin to drop back to normal levels.
- Perform a 5 minute cool down at a slow pace, using controlled breathing.
